

PAIS Call for Papers

The Sixth Conference on Prestigious Applications of Intelligent Systems - PAIS 2010 Program Committee invites papers describing innovative applications of AI techniques to real-world systems and problems for the Technical Program of the 6th International Conference on the Prestigious Applications of Intelligent Systems - a sub-conference of the 19th European Conference on Artificial Intelligence - ECAI 2010.

Papers highlighting all aspects of the application of intelligent system technology are most welcome. Our aim is to provide a forum for academic and industrial researchers and practitioners to share experience and insights on the applicability, development and deployment of intelligent systems. PAIS is the largest showcase in Europe of real applications using AI technology and the ideal place to meet with those working to make successful applications.

(Download the 6th PAIS Call for Papers as a text file.) Topics of Interest

Papers are welcome on all novel and significant applications of intelligent systems - the following list of application areas is indicative only:

- AI & Autonomous Vehicles
- AI & Education
- AI & Life Sciences/Medicine
- AI & Mobile IT
- AI & the Internet
- AI & the Semantic Web

- AI & Sensor Networks

Important Dates

Deadline for electronic abstracts Monday, 15 February 2010

Paper submission deadline Monday, 22 February 2010

Author response period

15-16 April 2010

Notification of acceptance/rejection Friday,

30 April 2010

Conference 16-20 August 2010

We will stop accepting new abstracts after midnight Hawaii time at the end of Monday 15 Feb.

We will stop accepting uploaded papers after midnight Hawaii time at the end of Monday 22 Feb.

Paper Formatting & Submission Information

Submissions for ECAI and PAIS must not exceed SIX (6) pages in camera-ready format. Over-length submissions will be rejected without review. Papers for ECAI and PAIS should be submitted using the ECAI formatting style; details of the style are available at:

ecai2010.appia.pt/images/documents/ecai2010-style.zip

This file unpacks to a directory "ecai2010", and contains LaTeX and other style files. The file "ecai2010.tex" is an example paper in LaTeX format using the appropriate styles, and can be used as a template for ECAI and PAIS submissions.

Each accepted paper will be allocated SIX (6) pages in the proceedings. ECAI 2010 also accepts posters. Each poster will have TWO (2) pages allocated in the proceedings. Posters must follow the same formatting guidelines as full papers. Authors may indicate whether they want a submitted full paper to be considered as well as a submitted poster in case of non-acceptance of the full paper.

Reviewing for ECAI 2010 will be blind: reviewers will not be presented with the identity of paper authors. To allow for blind review, author names in a submitted paper or poster should be replaced by the unique tracking number assigned by the conference website at the submission of an electronic abstract. Authors should avoid writing anything that makes their identity obvious in the text.

Submissions should be original, and in particular should not previously have been formally published. (Any publication venue with an ISBN or ISSN number counts as a formal publication; this includes LNCS/LNAI volumes, for example.)

Submissions should not be submitted elsewhere during the ECAI 2010 review phase.

The proceedings of the ECAI conference, together with those of its associated symposia, PAIS and STAIRS, will be published and distributed by IOS Press as a book and as a CD-ROM. The authors will be responsible for producing camera-ready copies of papers, conforming to the ECAI 2010 formatting guidelines for inclusion in the proceedings. At least one author of each accepted paper or poster is required to attend the conference to present the contribution.

Submission and review of papers for ECAI 2010 will be managed via the ConfMaster system:

ecai2010.confmaster.net -- for the ECAI main conference

pais2010.confmaster.net -- for the PAIS conference

ConfMaster will go live for ECAI and PAIS abstracts and submissions on Friday 15 January 2010. Prior to this date, the sites will be used for configuration and testing. All data uploaded or registered before this date will be deleted and will not be considered for the conference. Do NOT register or upload papers before 15 January 2010!

Submission for ECAI/PAIS 2010 is a two stage process:

- The abstracts of all papers for submission should be registered with the relevant ECAI or PAIS web server no later than Monday 15 February 2010.
- Papers should then be uploaded in PDF format no later than Monday 22 February 2010.

All submissions will be subject to peer review by the ECAI 2010 Programme Committee, and evaluated on the basis of: relevance; significance of contribution; technical quality; scholarship; and quality of presentation.

The primary authors of submitted papers will be offered the opportunity to respond to the reviews for their papers before the final decision on acceptance or otherwise is made. The author feedback phase will last two days, between 15-16 April 2010.
